GPS Soil Sampling

• County Farm Centre offers GPS soil sampling on 1 acre, 2.5 acres and 5 acre grids, as well as boundary mapping. Soil sampling is the first step in Precision Ag and leads to pinpointing problem areas, site-specific recommendations and variable rate application.

• Be sure to stop in at one our locations to get your name on the soil sample list!!

ENERGY DIVISION

It's that time of year to start thinking about home heat for the upcoming winter months.

Furnace oil is a reliable energy source that provides your home with comfortable, affordable heat.

County Farm Centre propane is a reliable, safe, efficient source of clean-burning fuel that's friendly to the environment. County Farm Centre provides bulk propane as well as home, farm and commercial deliveries. So for all your fuel needs; let our family keep your family warm this winter.

We now also carry in-stock, diesel exhaust fluid (DEF) for your tractor or truck. Available in 9.6 litre jugs, 208L drums or 1200L totes. Call Tim for pricing at 613-922-1308.

ANIMAL FEED & NUTRITION

The 1st Six Months Last a Lifetime!

- **25%** of a dairy calf's Lifetime **Weight** and
- **50%** of Lifetime **Height**

Occur in the first **6 Months** of a Dairy Calf's Life!! Studies have stated that heifers that were fed to a higher level of nutrition early in their lives (6 months and younger) gave up to 3,092 lbs (Foldager and Krohn 1994) or 1,405 kg more milk in their 1st lactation! Not to mention that most of them entered the lactation group up to 2 months earlier than their under nourished herd mates.

- 3,092 lbs (1,405 kg) more milk 1st Lactation
- Lowered Age of 1st calving by 2 months

Confirmed through research and more than **160 nationally conducted field trials**, calves gain more weight and have greater structural growth when calves were fed the **AMPLI-Calf** feed program.

Step #1: **Ampli-Calf 22% Starter** for Calves 3 days to 12 weeks. Feed Free Choice along with free choice water and the required amount of milk or milk replacer.

Step #2: **Ampli-Calf 18% Grower** for calves 12 weeks to 24 weeks of Age. Feed 2-3 kg per day with free choice water and dry hay.

Remember you only have 1 chance to get your heifer off to a good start and she will pay you back the rest of her lifetime. Let us help you get there.
