## ANIMAL FEED & NUTRITION

### BRIGADE STRESS FIGHTING FORMULA

*for stressed beef/dairy cattle during weaning, shipping, grouping & breeding*

Crystalyx brand Brigade Stress Fighting Formula is a high energy, freechoice supplement fortified with electrolytes, high levels of vitamins and minerals and chelated/organic trace minerals. This helps overcome nutritional stress associated with weaning, shipping, grouping and the breeding period.

#### FEATURES & BENEFITS:

Improves breeding conditions.

Expression of heat, standing estrus; Fertility; Conception rates; Contains Zinpro's® chelated/organic copper, zinc and manganese to improve trace mineral availability and utilization; Stimulates dry matter intake leading to better condition at breeding time.

Reduces stress.

Crystalyx brand Brigade Stress Fighting Formula can reduce stress caused by weaning, environment, grouping and shipping.

Stimulates appetite.

Bvitamin complex helps stimulate intake during periods when different stressors challenge intake; High vitamin and trace mineral fortification enhances immune response for fighting disease; Palatability ensures consumption of critical nutrients.

#### FEEDING DIRECTIONS:

Crystalyx brand Brigade Stress Fighting Formula is designed for freechoice feeding to calves, growing cattle and mature breeding cattle fed moderate to high protein forages. Brigade Stress Fighting Formula is fortified with electrolytes and with levels of vitamins and trace minerals to help overcome nutritional stress associated with shipping, weaning, rapid growth rates, late gestation and early lactation. Freechoice consumption will depend on the size of the animals fed, as well as, quality, source and availability of other feeds.

Pen-Raised Calves: Place containers near water source or feed bunks, preferably elevated from ground level to minimize contamination with dirt and other foreign materials that may discourage consumption. Use one (1) container perhead for individually fed calves, and one (1) container for every three to 10 head when calves are fed in groups. Calves typically

consume between 30 and 120 grams perhead, per-day.

Growing Cattle & Mature Breeding Cattle: Place containers in areas that achieve desired supplement intake. Once acceptable intake levels have been achieved, the containers may be moved to underutilized pasture areas to improve grazing distribution and forage utilization. Feed at the rate of one (1) container for every 20 to 30 head, with a minimum of two (2) containers in each lot or pasture to ensure proper accessibility. Cattle typically consume between 100 and 340 grams per-head, per-day.

All consumption figures stated here are approximate. Provide free access to clean, fresh water at all times.

Our feed specialist - **Dave McGee**, will be visiting farms to speak about this great product. Any questions, call Dave at 613-848-2346 or email [dave@countyfarmcentre.com](mailto:dave@countyfarmcentre.com)

## STORE NEWS

Need propane or chlorine? County Farm Centre has it! Our Picton location can refill approved propane cylinders while Foxboro and Madoc stores both offer 20LB cylinder-exchange programs.

Chlorine is dispensed at our Picton and Madoc locations. A container is required - sold in store. Foxboro has a jug-exchange program.

Time to get outside and have fun! Pass the time with great outdoor games like ring toss, badminton, horse shoes or lasso golf!

Father's Day is coming up on **June 21<sup>st</sup>**. Find the perfect gift for Dad at County Farm Centre - BBQs, workwear, food and everything inbetween.

There's still time to start a garden. It's easy and fun! We can help you get started. Come in and see us.
