## AGRONOMY CORNER

Key features of maximizing your wheat yield.

1. Certified seed
2. Timely planting
3. Seeding rate
4. Seed depth
5. Soil testing and balanced fertility
6. Balancing sulphur application with nitrogen in the spring
7. Fall weed control
8. Spring follow-up

### Please help us update our Pesticide License database.

If you have updated your license recently please let us know your new number and expiry date.

You can call any of our locations or e-mail it to [lindsay@countyfarmcentre.com](mailto:lindsay@countyfarmcentre.com)

*Now's the time for...*

### GPS Soil Sampling

County Farm Centre offers GPS soil sampling on 1 acre, 2.5 acres and 5 acre grids, as well as boundary mapping. Soil sampling is the first step in Precision Ag and leads to pinpointing problem areas, site-specific recommendations and variable rate application.

*Be sure to stop in at one of our locations to get your name on the soil sample list!!*

## ENERGY DIVISION

It's that time of year to start thinking about home heat for the upcoming winter months.

County Farm Centre propane is a reliable, safe, efficient source of clean-burning fuel that's friendly to the environment. County Farm Centre provides bulk propane as well as home, farm and commercial deliveries.

As always, County Farm Centre also delivers furnace oil - a reliable energy source that provides your home with comfortable, affordable heat.

Don't forget to change your furnace filter and please take extra care on the roads during harvest time. Have a safe and productive fall season.

### Wiseway Pellet Stove at County Farm Centre - Foxboro

- Great for hunting camp, cottage, shop, greenhouse or anywhere you want heat!
- Runs without the need or expense of electricity.
- EPA certified gravity fed with no moving parts.
- Portable at 130lb! "Best in Show" "Best in Class" for 2014 Expo.
- No more losing heat when the power goes out!
- This area's official dealer of the Wiseway Pellet Stove

## ANIMAL FEED & NUTRITION

### The 1st Six Months Last a Lifetime!

- **25%** of a dairy calf's Lifetime **Weight** and
- **50%** of Lifetime **Height**

Occur in the first **6 Months** of a Dairy Calf's Life!!

Studies have stated that heifers that were fed to a higher level of nutrition early in their lives (6 months and younger) gave up to 3,092 lbs (Foldager and Krohn 1994) or 1,405 kg more milk in their 1st lactation! Not to mention that most of them entered the lactation group up to 2 months earlier than their under nourished herd mates.

- 3,092 lbs (1,405 kg) more milk 1st Lactation
- Lowered Age of 1st calving by 2 months

Confirmed through research and more than **160 nationally conducted field trials**, calves gain more weight and have greater structural growth when calves were fed the AMPLI-Calf feed program.

Step #1: **Ampli-Calf 22% Starter** for Calves 3 days to 12 weeks. Feed Free Choice along with free choice water and the required amount of milk or milk replacer.

Step #2 **Ampli-Calf 18% Grower** for calves 12 weeks to 24 weeks of Age. Feed 2-4 kg per day with free choice water and dry hay.

Remember you only have 1 chance to get your heifer off to a good start and she will pay you back the rest of her lifetime. Let us help you get there.

~ PLEASE MARK YOUR CALENDARS ~  
**DAIRY MEETING**

December 3RD. Feature speaker Dr. Tom Earlywine. Details to follow shortly.

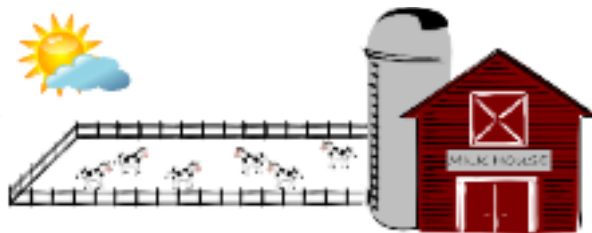

Mike Ingram and Dave McGee  
Masterfeeds LP and County Farm Centre
