## AGRONOMY CORNER

### IMPORTANT REMINDER

As we inch ever closer to Spring the importance of finishing your seed treatment paperwork is a priority.

You **MUST** have your paperwork completed before planting. If you do not, you put *yourself as well as anybody you bought seed from in serious jeopardy.*

Producers, ag retail and seed suppliers are all stakeholders in the agricultural industry. Completing the seed treatment paperwork and providing it to all your seed suppliers, demonstrates our compliance and good stewardship within our industry.

We are more than willing to assist you with completing the paperwork, if you have any questions contact us.

Thank you for your effort in helping us comply with the regulations.
