### Price Protection Plan

**Take the worry out of price volatility**

*for your farm or business!*

**Price Guard** enables you to establish a ceiling on your fuel prices for up to 6 months. This program protects you against rising fuel prices, while offering the benefit of paying a lower price if market prices decrease.

**Now that's value!**

## Feed Corner

The Amplicalf feeding program has enjoyed its first full year and we are getting some tremendous results in heifer growth and development. I am seeing heifers that are hitting 1000 lbs and reaching 54-56 inches in height in their first year.

Charles Doornbos from Foxboro who has been dairy farming and raising heifers for over 40 years was somewhat skeptical at first about the program, but shared these comments with us.

"When I was first approached about the Amplicalf program I was skeptical, not anymore. Being on the program for about ten months, I find the growth of the heifers tremendous, tall, dairy, lots of rib, and great appetite. I can't wait to see what they'll do in the milk line."

If you have any questions about the Amplicalf program or want to see some outstanding heifers don't hesitate to get in touch with Charles.

Best of luck and keep them growing!
